

How to Link Within Your Own Website

There are two ways to link to pages within your site. One way is to turn one of your extra pages "On" in the "Manage Pages" section of your **Agent Center**. The other way is to create text on a page which links to other pages within your site (demonstrated in the example below).

For the sake of this example; let's create a link from your "Homepage" to your "Contact Me" page.

Step 1

Click the pencil icon "  " located above the text area of the text that you would like to link to within your site.

Serving: The entire San Fernando Valley, Santa Clarita Valley, San Gabriel Valley, and surrounding areas!
Specializing in Thousand Oaks, Westlake Village, Agoura Hills, Calabasas and Simi Valley.

My Pledge:

"You have my firm commitment that I will work hard with you to fulfill all of your real estate needs now, and in the future! I have years of real estate experience in the area. My goal is to offer you the best service possible to help make your dreams come true. Since most of my business is from repeat Clients and referrals, your needs are extremely important to me! Let my knowledge and know how work for you!"

Market Conditions:

"Wow! the Real Estate Market here is very very hot! Listings, properly priced, don't last a week on average before someone buys the home, Homes in the \$400k-\$600k are especially in demand! Have a home for sale in that price range? Ask about my Hot Home Discount Plan! I'll save you money on commissions!"
