

How to Setup Your Client Testimonials

Note: Your pages may be titled differently depending on what you labeled them in the "Manage Pages" section. In order to edit these two pages, they must also be made visible, if they aren't already. This is done in the dashboard section under "Manage Pages" by checking the box to right of the appropriate page.

Click on the "Testimonials" page in the navigation of your Agent Center.

Once the page refreshes you will see a page similar to the one below
Click on the "Add Testimonial" link to add a testimonial.

 **MY TESTIMONIALS**

[Add testimonial](#)

Client name: Wilson Family

You were very helpful and supportive in our search for a home. You only showed us exactly what matched our needs. You are the best!

Client name: Emily Link, Homeowner

It was great to work with you. You found our new home in one week! We were there the morning it became available and he hand delivered our offer to the Client downtown that afternoon. That night there were several other offers, but ours went thru before they had a chance!

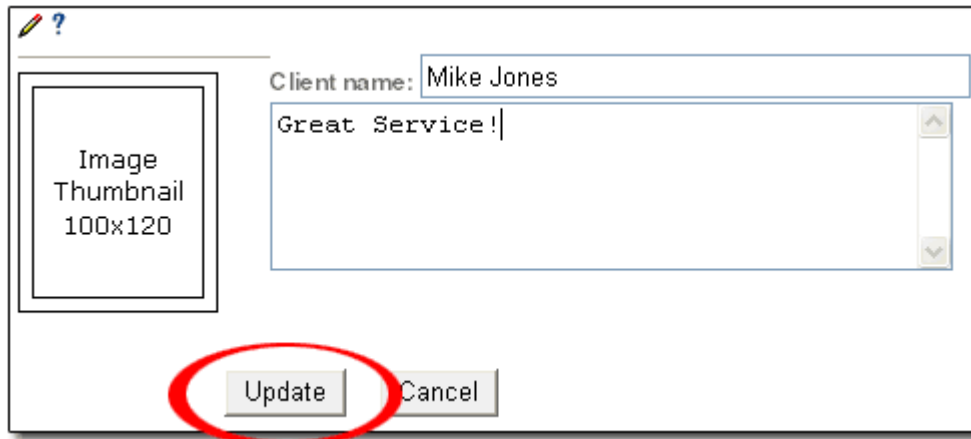

The "Add new testimonial" module will appear at the top of the list of testimonials. To add an image and text to the testimonial, click on the "" icon.
